"Shodoshima (Shodo Island)" is an olive island with the attractiveness of four seasons.

A superb view created by nature for all four seasons, specialties such as olive oil and soy sauce based on traditional culture and a beehive of a film which is reminiscent of old times. Such attractiveness of Shodoshima which is referred to as "a place where visitors would like to return many times," is hard to express in words.

Fully enjoy the exotic island by breathing the fresh breeze in the Setouka region.

Experience Japanese culture which is like a scene in a movie

Nijushi no Hitomi Movie Village and presentation of kamishibai (picture-card show)

In Japan, kamishibai used to be a major form of recreation for people and was especially popular among children. A team for the internationalization of tourism in Shodoshima will present the kamishibai in English. Dressing in rental "kasa" helmets, feel the Japanese culture of that time and enjoy the attractions of Shodoshima.

Fully enjoy superb scenery around Shodoshima

Feel the mountain, ocean and sky in Kankakei and experience "kawarakenage" (throwing clay vessels to offer a prayer) and barbecue

Kankakei is referred to as one of the three most beautiful gorges in Japan. You can also enjoy barbecues against the background of rocks with unique shapes created by volcanic actions around 16 million years ago and experience throwing clay vessels for all four seasons. The beauty in nature is breathtaking from the ropeway and the atmosphere on the mountain cannot be experienced at any other places.
