# Enjoy Japan to the largest extent in a rental car from one of Japan's largest rental car services—— TOYOTA Rent a Car

## POINT 1

### TOYOTA Rent a Car—approximately 1,200 shops across Japan. Outside airports, stations, and hotels. Wherever you want to rent or return.

From the reservation to the return,  
our staff lends its support to your journey with hospitality.

We offer a one-way system allowing you to return the car at a shop other than from where you rented it. You can pick up a car at Kansai International Airport, drive from Osaka to Mt. Fuji and Tokyo, and return it to Narita International Airport!

There are multiple shops not only in the lobbies of places like airports, but also all around cities. Our rental cars provide ease in your return, say, even after a shopping spree with a bunch of purchases. That's just one of many uses.

## POINT 2

### TOYOTA Rent a Car—easy procedures. Simple even for customers not comfortable with Japanese.

#### Rental Procedure

1 Go to the Toyota Rent a Car shop.

2 Complete procedures at the rental application counter.

3 Sign your name, and after checking the car for any damages, get your rental car.

4 Bon voyage! Enjoy your trip in Japan!

#### Return Procedure

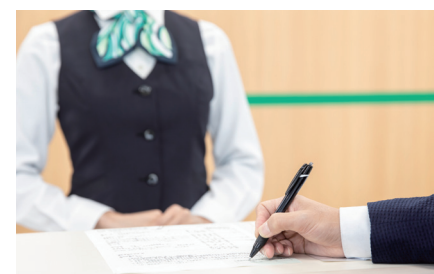

1 Return the car after filling the tank.

2 Return the car to the shop you designated when you made the reservation.

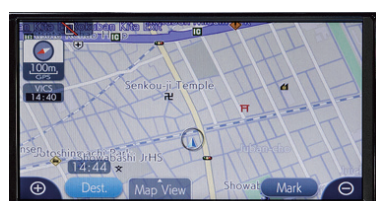

3 Check for any things like damage to the car.

4 Settle your bill at the counter, and the return is complete.

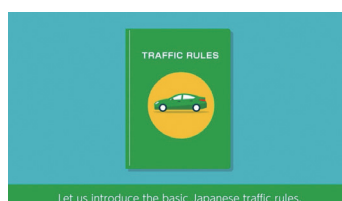

## POINT 3

### TOYOTA Rent a Car—complete support. Feel comfortable driving around Japan.

Car navigation systems using Chinese, English, and Korean

Use this as a free option. Get to where you need to go without getting lost during your first time on Japanese roads.

Introduction to traffic rules via our website
