Shibuya: Enchanting Encounters

An iconic scramble crossing, festival-size crowds.
That frenzy is just a small part of Shibuya.

Shibuya is a mysterious place.
More than you imagine.
Mazes of alleyways.
New buildings everywhere.
Enticing clubs lining steep streets.
Vintage bars tucked behind buildings.
The young and the old. Day and night.
Pleasure and business.
The displayed and the discreet.
In Shibuya, opposing temperaments
effortlessly coexist.
Drawn by its enchanting streets,
people gather just to be there.

Tokyo's first midair garden
was built for such people, 60 years ago.
In that garden park, people created art,
zigzagged on skateboards,
and met to pass the time together.
But it aged over time and was demolished.

In 2020, MIYASHITA PARK was reborn in its place.
People and nature, street life and culture,
all come together in the world's only four-story park.

The winds cross paths over MIYASHITA PARK

Tokyo comes together in MIYASHITA PARK,
a new hub for a new era.

Soothing nature, shops, entertainment
and a hotel, all assembled in one place.

On the rooftop is an actual public park,
where everyone can unwind on expansive lawns,
high above the streets.

Enjoy panoramic views of Shibuya,
coffee and picnics, even skateboarding.

Record Shop "Face Records"

Of course, the park's cutting-edge facilities are fully sustainable.
The shops cooperate by separating refuse into 20 categories
for a 100% (except food waste) recycle rate.

New technologies enable solar-powered self-compacting trash cans
and water-cycling hand-washing stands.

In the event of an earthquake or disaster, the entire facility becomes an evacuation site.
Food, water, and blankets are stocked for people seeking temporary shelter,
and periodic trainings prepare for emergencies.

A few steps below the park
are floors filled with everything Tokyo-cool.
Restaurants worth waiting in line for.
Only-in-Tokyo specialty shops.
Here, LP record and high-end brand shops
rub shoulders with office-shares and night clubs.
Food, Music, Fashion, Art, Shops.
This environment, integrating
every kind of culture,
is the essence of Shibuya.
Come check out for yourself,
the dawn of a brand-new era.
