DISCOVER YOKOHAMA

# Welcome to Yokohama, always in bloom

Once known as the “*Gateway of Flowers*,” Yokohama Port introduced Japanese lilies and floral culture to the world. Today, this legacy lives on as the city embraces its role as the “*Port of Flowers*,” connecting people and cultures through the universal language of blossoms.

Just 25 minutes from Tokyo, Yokohama is Japan’s second-largest city—but it proudly maintains a character all its own. Centered on a scenic harbor and surrounded by green spaces, it blends urban vitality with nature and sustainability.

As Japan’s first port opened to the world, Yokohama has long been a crossroads of East and West. This spirit of international exchange still thrives in its culture, food, and people.

Now, as the host city of **GREEN EXPO 2027**, Yokohama is once again ready to welcome the world—inviting visitors to explore a greener future. Whether you arrive by cruise ship, train, or plane, Yokohama offers a journey rooted in history, blooming in the present, and growing toward tomorrow.
