The Tree Run Destination

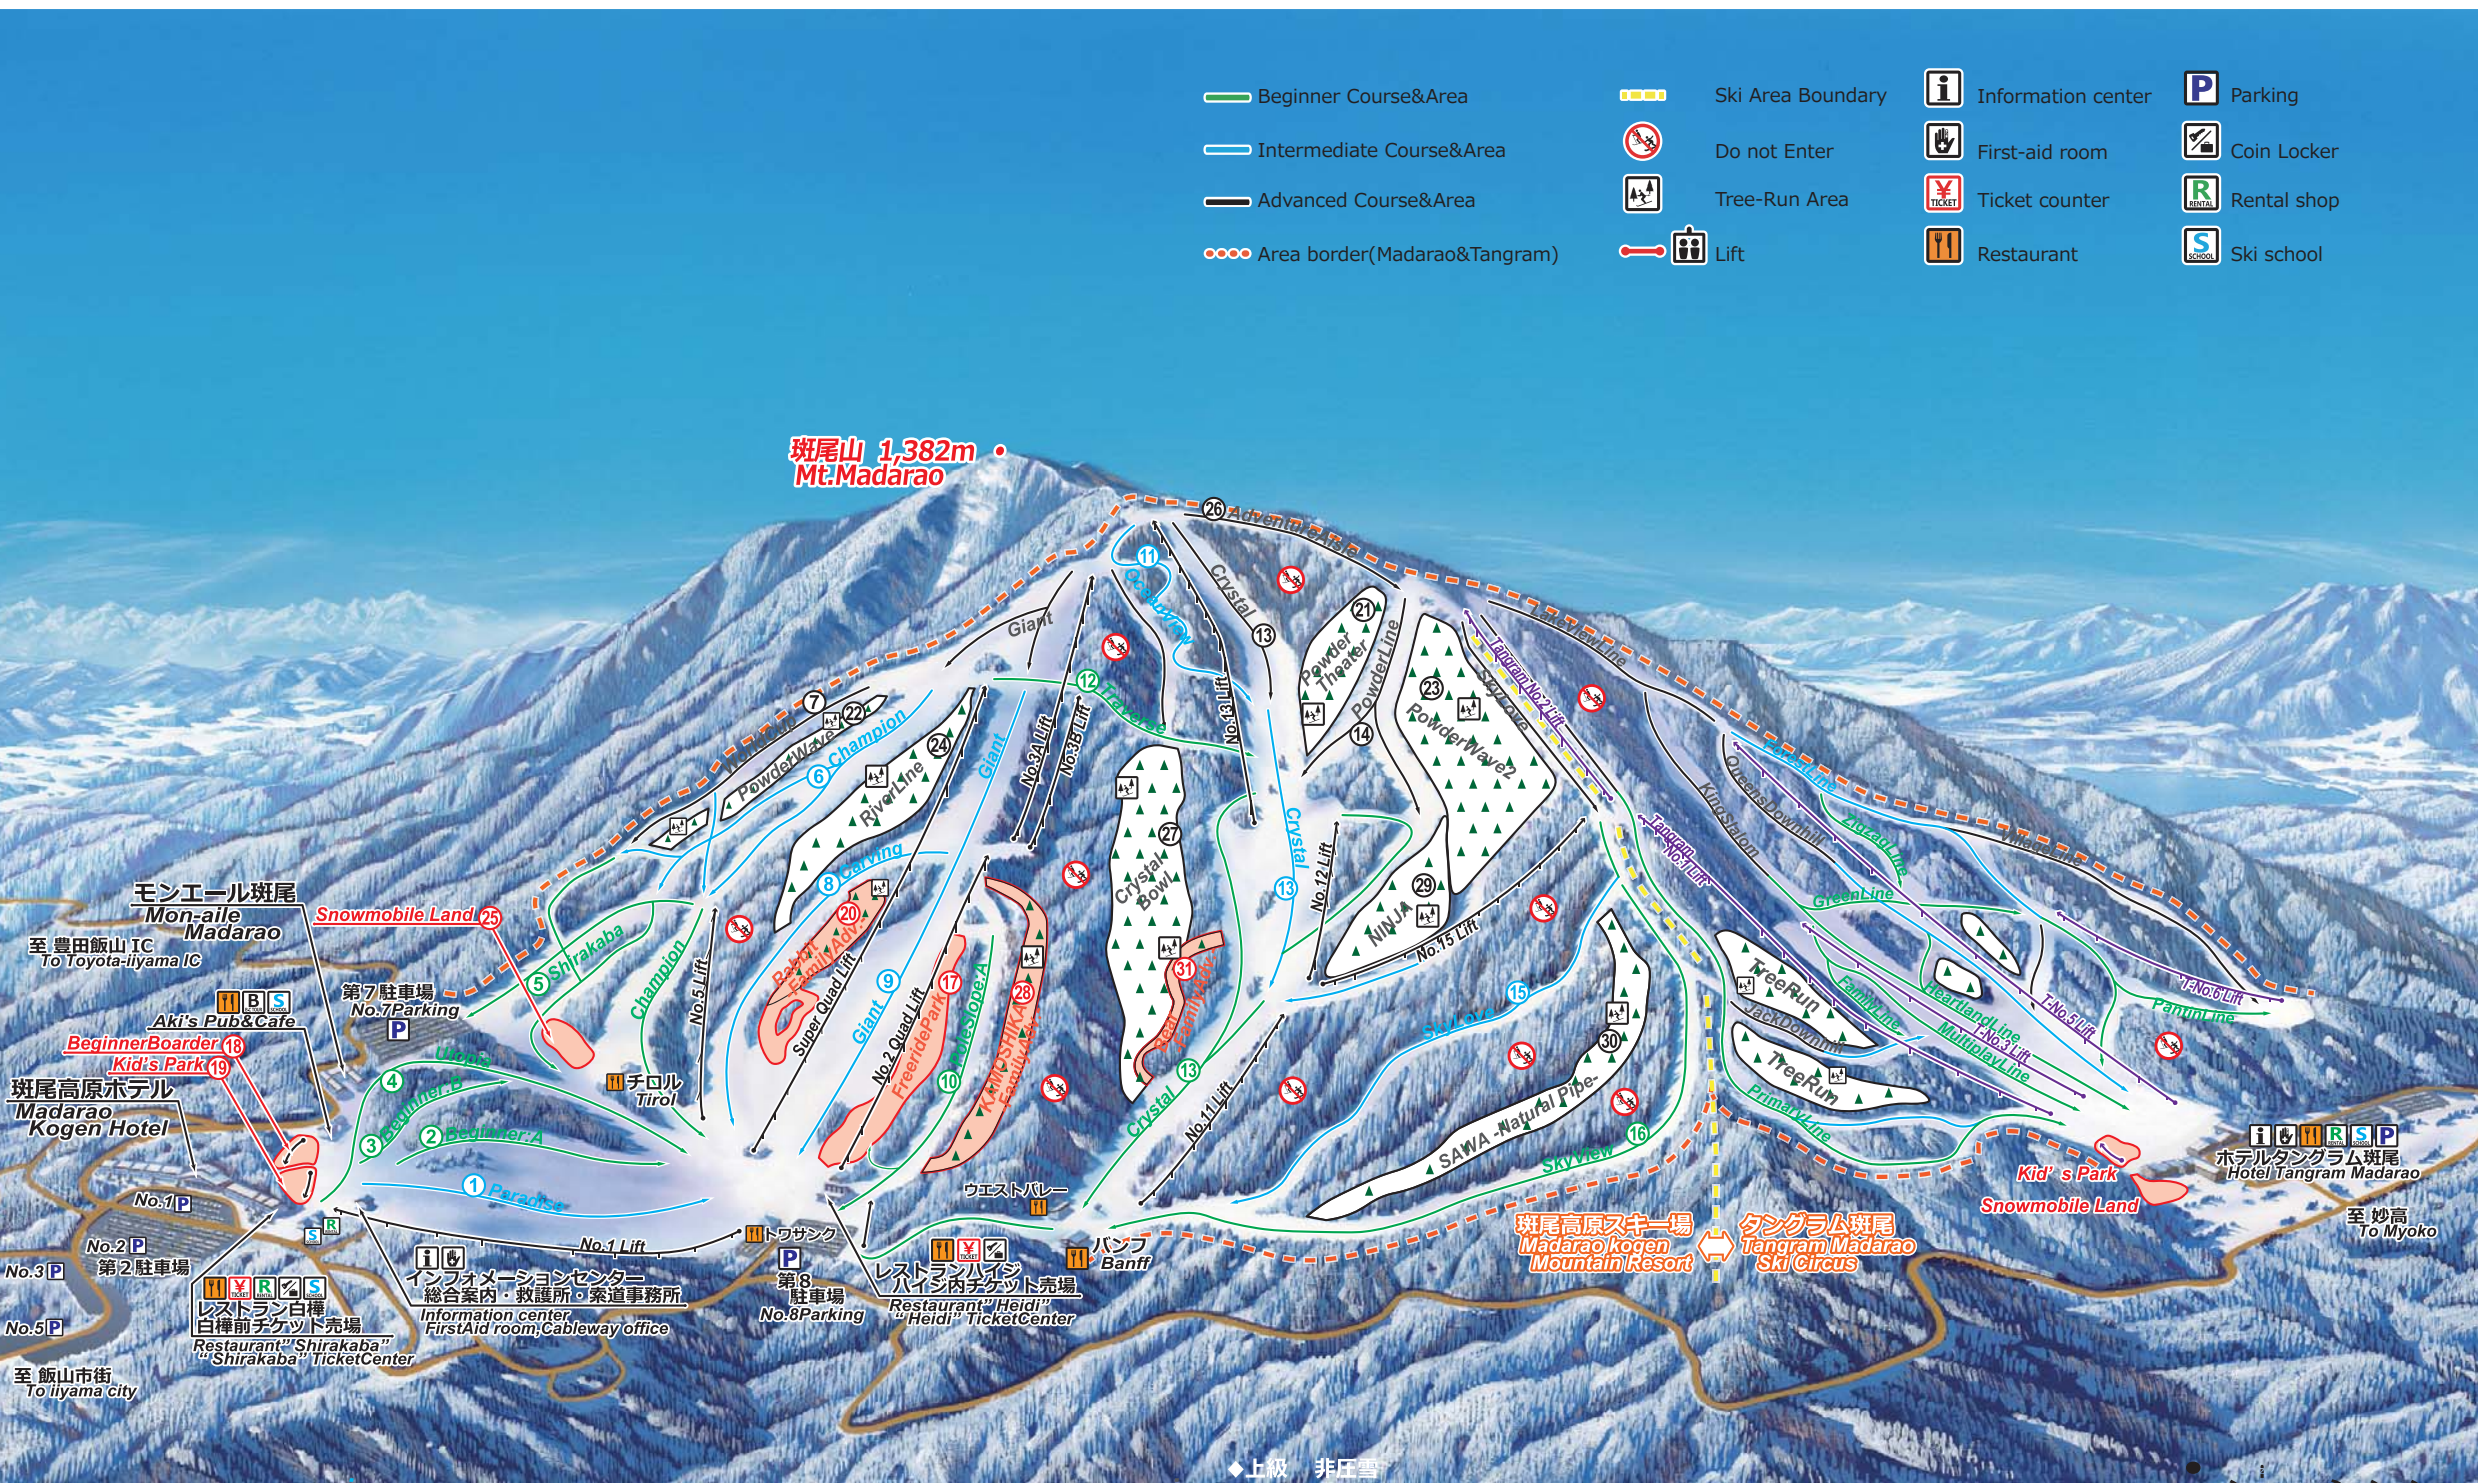

Our concept is 'Make your tree run debut.' With easily-found courses, quick access and smooth exits. It's a one-stop destination for tree run-lovers of all abilities. Madarao is located in the northern part of Nagano Prefecture, between Nozawa Onsen and Myoko Kogen. There are 13 official Tree ski courses, more than any other ski resorts in Japan. Without much competition for the slopes, and 60% of the courses being ungroomed, there is a good chance you'll enjoy deep fluffy powder.

KIDS PARK

The Madarao Kids Park is very popular with children. It is set up on a regular ski run but also has lots of fun stuff like sleds, snow tubes and a Japanese style igloo for the kids to enjoy. There is also a 'snow fun corner' where anybody can have fun in the snow regardless of age or ability.

The Sky House ('Sora no Ie') is a free facility close to the park. You can warm up, seek refuge in extreme weather, or rent out sleds. There is also a 'snow escalator' inside the park that has been organized to let even small children move around easily.
