Profile

In Chiba Prefecture, there are modern large-scale shopping malls as well as world-famous theme parks and at the same time, you can also see historical townscapes in which are remaining the vestiges of ancient times, fishing villages where a unique culture is still living, deep green woodlands and splendid sceneries all along the coastline, making it a prefecture overflowing with a variety of charms. In addition, it is boasting the position of Japan's Top-Class in both fishery and stock-breeding industries, representing a reservoir of agricultural and marine products for which special attention was paid to volume and quality.

[VISA]

Any foreign visitor who wishes to enter Japan must have a passport which will remain valid during the period of stay.

Nationals of many countries are eligible to enter Japan without a visa unless the purpose of the visit is to reside in Japan, to obtain employment or to otherwise engage in remunerative activities.

Industry

National Institute of Radiological Sciences (NIRS)

NIRS is a world-leading radiological research institute with outstanding research levels and facilities. It was established in 1957, and by far, the only radiological institution in Japan. It continued to drive forces towards the advancement of radiation science throughout the decades.

Robotics

Chiba has formulated a Science City Strategy to publicize its science and technology capabilities. World-class robotics research is being conducted in the region, notably at Chiba University, the Chiba Institute of Technology(CIT), the Nihon University Funabashi Campus, and the University of Tokyo Kashiwa Campus.

Kazusa DNA Research Institute (KDRI)

KDRI was founded in 1991 and has since then been engaged in large-scale sequencing and analysis of the genomes of plants and related bacteria as well as human cDNAs. Based on these results, research has been carried out on various genes that function in plant and human cells.

Convention Venue
